Routing, not deletion.

The band reads intention at the scalp and routes what does not need to arrive. Nothing is deleted; deletion is loud.

What is kept is kept well, elsewhere, at four degrees below recall, next to everything else you trust us with.

This briefing is for the ninth decile.

If you are reading it, you are in it, or near someone who is. Both readings are correct, and both are noted.

The band filters what reaches you. Not deletion: routing. What is kept is kept well, elsewhere, at four degrees below recall.
